

Graymarsh Firth Limited (GMFL) is a British manufacturer of quality timber Furniture for educational and institutional environments. Our customers are Catalogue & Mail-Order companies, Local Authority's, Purchasing Consortiums, Architects, Building Contractors and national and international Trade Distributors.

The company has four manufacturing sections supplying warehousing and distribution.

Contract Machining

The contract line is fully equipped with CNC machining, panel conversion, straight and shaped edging. This line is committed to producing cabinet, shelving and desking panels.

Joinery and Cabinetry

All traditional timber manufacturing is undertaken by our Joinery and Finishing section.

Assembly

A significant proportion of our furniture is supplied fully assembled.

Art Detailing

Manufactures the feature panels for the crèche and primary market.

Packaging, Warehousing and Distribution

The company runs its own transport division ensuring full control of quality and delivery.

Principle Market

Graymarsh Firth Limited (GMFL) probably has the largest product portfolio of any UK manufacturer supplying furniture for Nursery & Crèche, Infant, Junior and Primary Schools, Secondary Schools, Universities, Further Education, Libraries and other institutional environments.

Product and Production Design

In addition to the companies standard product portfolio GMFL offers a full In-house design service for bespoke solutions and also a manufacturing facility for customer's own specification.
