

The Gratnells Storage System offers a unique way to maximise storage and minimise space. The sturdily built frames are manufactured to the highest quality and finished in either grey, white or beige epoxy coating. Every runner is coated in Nylon for years of wear. The trolleys are fitted with 75mm ball bearing castors fitted in solid steel blocks for heavy school wear.

There are two ways to order Gratnells storage. Either select a pre-made up frame or trolley or design your own combination for your exact needs. The table on the opposite page will help you work out how many trays fit in each column.

TALL FRAMES					
Product Description	Code	W	D	Height	Price
Treble column					
Empty	3625	1055	420	1850	£210.46
