

Nexus Shelving System

NEXUS SHELVING SYSTEM

Nexus Shelving for Libraries, Classrooms & Offices

Precision engineering makes this an extremely high quality product combined with the durability of 18 & 25mm Melamine faced chipboard carcass and 25mm thick shelves. All edges are finished with a impact resistant 2mm PVC edge.

An extremely robust and cost effective system that gives a fully fitted result from a product assembled by your-self or, where required, by fitters that can be organised by ourselves. This is the real alternative to ugly metal shelving with its soft timber appeal.

The system is based on starter (ST) and extension (AD) units making Nexus both flexible and cost effective. Only a few examples are shown here - please contact your supplier for further information or our survey, design, layout and quotation service.

You don't have to install it as a system !, order starter units for free standing bookcases or benches.

Available in beech, grey, green, red, blue, yellow and oak. Why not consider a variation of colour.

Starter units are delivered assembled. Add-on units are delivered KD for self-assembly. If you need help with your order please contact us

The number of shelves refers to the number of adjustable shelves, all units have fixed top and base shelves for rigidity.

Reversible Shelves

Available as fitted top or middle shelves or adjustable shelves. The shelves can be adjusted to be either display or flat with backstop, ideal for course work texts. State Colour Required.

Display Shelves

Only available as fitted shelves. State Colour Required.

Flat Shelves

Available as fitted top or middle shelves or adjustable shelves. Flat shelves are the same colour as the carcass.

Bench Seats

Straight sections include under-seat storage with lift-up lid. Bench units are 476mm deep.
