

Nexus Shelving System

NC960

Nexus Combinations

We have represented a range of combination sets for simple ordering; four examples are shown below.

NC960 1200mm high single sided run consisting of one flat top and two display units:

NC962 1200mm high single sided run with one flat top and two reversible units:

NC963 1200mm high single sided run consisting of two display units separated by bench seat with lift-up lid:

NC964 1200mm high single sided corner arrangement consisting of two display top units and corner bench with two lift-up sections:

ADVICE

If units are to be heavily loaded we recommend that maximum bay lengths of 704mm are specified. 1047mm bay lengths are ideal where light loads are required such as a combined storage and display.

All units of height 1500mm and over must have a fixed middle shelf.
